

You're failing HVAC. Here are the answers you need.

Ice Air Empathy
Ice Air Agility
All Climate Comfort
Well-Schooled Support
Ice-Air.com 877-ICE AIR-1

We understand your frustration with HVAC.

If it's underperforming or failing, **so are you**, -simply by not knowing about Ice Air. Managing indoor comfort on a college campus is a complex task. Without the right tools, you're spending a lot more time on heating and cooling than you need to.

With more energy-efficient, cost-effective options, we can help in more ways Ice Air has the **agility** to provide the right solution for any building, climate, or power source. Unlike traditional manufacturers, we can even modify equipment for difficult projects. Stop wasting time and resources on quick fixes. Ice Air is the one source with readily available parts, replacements, and retrofits that really fit perfectly.

Rely on Ice for the right answers.

We hope the Dean doesn't see this before you: Our **All Electric, All Climate Comfort™** equipment is **easy to install, requires minimal maintenance**, and delivers up to **25% greater efficiency** with 0 emissions. That means a cleaner, greener campus with **lower operating costs**.

Learn what well-schooled support can do.

Get to know a company that understands the unique challenges of campus facilities management. Ice Air shares our knowledge from working with the leading colleges nationwide. We help navigate code restrictions, mandates and the path to incentive programs—especially valuable when converting existing buildings into dormitories.

Knowledge is empowering, it's your job to know.
